

***The following guidelines have been updated for non-worship gatherings at Immanuel effective June 1, 2021***

All groups must follow current CDC recommendations, specifically the following:

- All fully vaccinated individuals (two weeks past last required vaccination shot) may gather without masks and no social distancing.
- Any individual not fully vaccinated should wear a mask properly and maintain social distancing

All events that include individuals under 16 years of old must provide adequate social distancing as part of the event plan

In addition, groups must adhere to the following Immanuel specific policies

Any group wishing to use Immanuel must receive approval (via email) from Connie Baur, Immanuel's business administrator. Approval must be requested and given Seven (7) days before any gathering is to take place.

In the event of a positive case from an event attendee, the group leader should notify the church office and notify all individuals attending that event.

Each group is responsible for the cleaning of surfaces and removal of trash created during gathering. Immanuel will provide necessary cleaning supplies (no outside or unapproved cleaning supplies should be used.)

Anyone required to wear a mask may remove it for eating or drinking then return to mask compliance.

Outdoor gatherings remain an encouraged option for groups.

If your group meets on a regular schedule you may provide and receive approval for all gatherings at one time.
